HUMAN
TRAFFICKING
INSTITUTE

Directory of Service Providers for Victims of Trafficking in Persons in Uganda

This **Directory of Service Providers for Victims of TIP in Uganda** was developed in partnership with the **Coordinating Office for the Prevention of Trafficking in Persons (COPTIP)** under the Ministry of Internal Affairs. Pursuant to the **Prevention of Trafficking in Persons Regulations** (Regulations 2019) and **National Referral Guidelines for Management of Victims of Trafficking in Uganda** (NRG 2020), all governmental and non-governmental organisations must follow the required reporting requirements and necessary steps in referring victims to service providers and in engaging in activities related to the assistance and rehabilitation of victims of TIP. All service providers and stakeholders should carefully consult the Regulations (2019) and the NRG (2020) for additional instructions and information related to reporting, referral, rehabilitation, repatriation, and reintegration of victims of TIP in Uganda.

This directory will be updated on an annual basis. Please email any changes, amendments, or additions to contact@traffickinginstitute.org.

This publication was authored by the Human Trafficking Institute's Victim Assistance Coordinator in Uganda, Joyce Nakato. It was designed by Amy Nelson of Roaring Jellyfish Designs.

Special thanks to the many civil society organizations across Uganda who reviewed and contributed to this directory.

Caring Hands Uganda

Offers a four-month entrepreneurship/vocational skills training (jewelry making) for vulnerable young adults and children living in poverty, women, people living in slums, single parents, people living with HIV, people living with disabilities, and the unemployed. Caring Hands also serves people ages 18–30 who dropped out of school. The training includes business planning, how to start small businesses, savings groups, promoting access to funding for small businesses, and acquiring skills through apprenticeship, as well as start-up kits, education, home visitations, food distribution, medical assistance, peer support groups, and life skills training. The program also monitors the performance of started businesses by beneficiaries and gives technical support.
